## HELLO, I AM MODUPEOLA MUHAMMED ABDUL-LATEEF

I'm a Front-End Developer and UI/UX designer from Lagos, Nigeria. I have worked in several capacities in the software development world ranging from being a designer relying only on my creative mind to working as a developer relying on my ability to think logically and do relevant research to solve a lot of problems. I would like to join your team of designers and developers as an entry level developer. The team is undoubtedly one filled with brilliant minds and led by an equally exceptional talent like yourself, that should explain my application to be part of this team, i want to learn, work and grow as a developer and i would really appreciate if i am given the chance to join your team. Below is a list of my educational achievements and my experiences working as a designer and a developer.

## EDUCATION

2010 - 2013

### Proficiency In Arabic Language

Khalwatu-Tanzeel

Arabic is one of the three major languages in the world. I have 90% proficiency in the language and that would be beneficial in developing anything for the millions of arabic speakers.

2013 - 2017

### Senior Secondary School Certification

Al-Faruq College

Attended the prestigious Al-faruq college where i graduated with distinction in my WASSCE and was subsequently admitted into the prestigious university of Swansea.

2018 - 2022

### Bachelors In Chemical Engineering

SWANSEA UNIVERSITY

Studied to become a Chemical Engineer in a top 10 engineering university in the UK. Swansea university has a dedicated modern facility for it's engineering students and they hold a 97% employment rate 6 months after graduation.

## EXPERIENCE

2013 - 2017

### Entry Level Web Design

Al-Faruq College

Started my web design journey at this great citadel of learning where i was introduced to coding by my IT teacher(Mr Soaga).

2018 - 2020

### Freelance Web Design

Muhalat LTD.

Worked as a freelancer on random web design projects to increase my proficiency with web languages and to get comfortable meeting deadlines.

2021 - 2022

### UI/UX Designer and Front-end Developer

MacroTel Nigeria LTD.

Interened at MacroTel Nigeria. A Financial technology company that is credited for the development of the "ZippyWorld" app. An all in one app for most financial transactions.

## SERVICES

### Web Design and Development

Let me build a website for your business that will amaze your customers and will increase your profits.

### UI/UX Design

I bring your basic ideas into reality by researching your target audience and building based on their responses, a user interface that will make life easy for them.

### Front-End Development
